SUBSCRIPTION PRICE 5 CENTS PER WEEK.

TO CORRESPONDENTS:

No notice can be taken of anonymous communications. Whether intended for insertion or not, they must be accompanied by the name and address of the writer; not necessarily for publication, but as a guarantee of his good faith.

We also beg to inform our readers that we do not hold ourselves responsible for the opinions of our correspondents.

Wool.—The wool market is nearly even, and many farmers who about half washed, half sheared and half "done up" their wool have lost by their own carelessness in this respect, from five to eight cents per lb. The quality of the wool in this country, has very much improved for a few years past, while the amount sold in this market is said to be much larger than that of any former year.

We would urge wool growers to study this branch of business with great care. Wool should be clean and free from dirt, or tar, and well done up which will always secure the highest market price.

Outrage.—Two men, named John Ray, gun cutter, 18 years old, and Thomas Graham, father, aged 32, at an early hour Sunday morning entered the house No. 10 State street, Brooklyn, N. Y., and attempted to violate the person of the occupant, Mrs. Elizabeth Morrell. Her screams prevented the parties from accomplishing their purpose, and in attempting to quiet her they stabbed her in the face with a knife. Officer Kenna, of the First Precinct, heard the disturbance, and rushed to the house just after the two men had left. He commenced in arresting them, however, during the night, and yesterday they were committed by Justice Blackley for arraignment.

The California Steamship Lines.—The Times of Monday, says the arrangements of the opposition line of steamers on the California route, with the United States Mail Company (Robert's) on the Atlantic side, will terminate by limitation on the 1st of October next, in anticipation of which, we learn that a purchase of the Collins' steamer was completed for the Pacific Mail Company on Saturday, and that three new vessels—the Adriatic, Baltic and Atlantic—will soon be in line so as to place the entire business of the Company under a single interest. The full particulars of the arrangement are not yet made public.

A Little Girl Scalded to Death.—On Saturday, says the Rochester Union, a little daughter of John Fox, who resides on North Clinton street, was dreadfully scalded by overturning a pan of boiling water upon herself. Mrs. F. had just placed the vessel, containing two or three quarts of water, upon a table, when the child seized it and turned the contents upon her head and shoulders, scalding her terribly. A surgeon was called, dressed the wounds and administered such palliatives as he could command, but he found the injuries about the vitals so severe that he entertained scarcely a hope of a favorable issue. During the night of Saturday the little sufferer was attacked by dyspepsia, and at eight o'clock on Sunday morning death put an end to her misery. The child was about two years old, and an active and promising little one. Mothers who have children of tender years about them while attending to domestic duties should always remember that they must exercise discretion for two—that the younger depends upon the older for protection against the mischief it may do itself.

Sons of Malta Going to Minnesota.—The Cincinnati Gazette learns from a private letter from Chicago, the following information relating to the coming excursion of the Independent Order of the Sons of Malta, to the Falls of Minnehaha, viz: "The Sons in St. Paul are making every arrangement for our reception. We expect a large party from here and have all the steamboats we want at our command; so that no one need fear a crowd. Quite a number of ladies go from here and Milwaukee, and at Madison the Governor of Wisconsin, (who is one of us) will receive the party in behalf of the State and join in the exercises."

Romance in Jail.

The conspiracy by which Cadwallader Wallace, Jr., who murdered John Goffrey at Chittenden, escaped from the Ross county jail is being divulged. It will be remembered that Wallace shot Goffrey in the street on account of his demurring at getting out of a wagon in which they were riding, to give place to some girls of the town. He escaped some six months ago mysteriously. Nelson McCollister, an accomplice in the conspiracy, has recently divulged the whole affair. It seems that young Wallace enlisted the servant girl of the Deputy Sheriff, Ross, and she took a man named Long into the plan, and one night while Ross was absent the prison doors were opened and Wallace escaped. A few moments after the girl raised an outcry, and the citizens found her with her eyes bandaged and hands bound, and generally seeing the part of having been overcome by force. It appears, also, that the father of Wallace, who is a wealthy man, had effected a bargain with this same Anderson and Geo. S. Baker, City Marshal of Chittenden, to liberate the prisoner; but while they were at his house concluding the plan, young Wallace appeared, having got the most of them; therefore these conspirators got no money. As is all well regulated plays, there was an under plot in this, in which more women were concerned, and this underplot was the means of divulging the affair.—A young citizen of the place was intimate with the sister of McCollister. Anderson also visited there; the young man was jealous; one night, when Anderson was coming, he secreted himself, and overheard him tell one of the girls his plan for the escape of Wallace. Subsequently he threatened Anderson to divulge unless he paid him \$1,000. Anderson being short gave him his note for the amount, and took a written pledge of secrecy. The note matured and was not taken up. Finally it was settled by Anderson paying \$1,000, and the papers were cancelled; but a third party had been relied, and he is now a witness. The case is before the Grand Jury of Ross county.—Columbus (Ohio) Journal.

STEAMBOAT EXCURSION.—On Thursday evening next, the popular steamer Maple Leaf is to make a brief excursion by moonlight over the waters of Lake Ontario.—A train will leave the Central Depot for Charlotte at 8 o'clock, and the steamer will sail from her dock immediately after the arrival of the cars. The excursionists will be brought back to the city as soon as the boat returns. The price of tickets by boat and railroad, going and returning, will be seventy-five cents—by steamer alone, fifty cents.

The Maple Leaf has generally made one or two such excursions each summer, and they have always proved pleasant.—A good band of music is always engaged, and many seize the opportunity for enjoying a dance.—Rock. Democrat.

TOMATOES.—One who has tried the experiment says that tomatoes are best prepared for eating, in this wise:—Take ripe tomatoes, cut them in slices, and sprinkle over them finely pulverized white sugar, then add claret wine sufficient to cover them.

Further by the City of Baltimore.

London, June 26—3 P. M.

The Daily News correspondent telegraphs from Paris on Wednesday morning, that the following telegram has been received from the Emperor to the Emperor:

Our Troops are crossing the Mincio without resistance, the enemy having retired from thence.

The Times Paris correspondent says that at the battle of Salferino the Piedmontese were at one moment enveloped by the Austrians, but that they recovered, repulsed the enemy and kept their position with exceeding courage.

Deserters from the Austrians unanimously state that 40,000 men were collected at Possolunga. This position fell to the Piedmontese—De Hilliers won Salferino and marched against Cavriana.

The order of the army was admirable. 1000 Piedmontese were killed, and about 1000 wounded. The Heights were occupied by the French, and the Austrians were forced to retire to Goito, being beaten again along their whole line.

NEWS AND MISCELLANY.

Jerome Nobles, of Wellsville, Allegany Co., was killed by the bursting of a cannon, which had been over-loaded, on Friday evening. He was not engaged in firing the piece, and was twenty rods distant from it.

At Floyd, Oneida county, on the 4th, a lighted fire-cracker was thrown accidentally into a can of gunpowder, which exploded and killed a daughter of Stephen A. Jefferson, 7 years old.

Forty-two deaths have resulted from the catastrophe on the Michigan Southern Railroad. We hear nothing further of the car-load of laborers supposed to have been drowned.

At Norwich, Ct., on the 4th, a party of juveniles paraded the streets with a banner, on which was inscribed the following words: "Young America—Give us Liberty or give us Confectionery."

Another "fashionable wedding" is announced to come off in New York on the 14th inst, the parties being a Spanish gentleman of 60 years, of fabulous wealth, and a young damsel, poor in purse, but of "marvelous personal attractions and majestic elegance." The bridal veil is said to have cost \$1000, and jewels \$150,000.

A party of four persons from New Bedford, caught 700 pounds of sword-fish on Thursday, 32 miles below the city. Three of the fish were worth \$40.

The Fall River News says that it is just 19 months since the services of the Fire Department have been required at any fire within the limits of that city.

John Hart Prentiss, assistant physician at the Maine Insane Hospital, died on the 3d inst, aged twenty-one years.

Miss Olive Oatman, whose captivity among the Apache Indians recently excited compassion, is lecturing at Saratoga upon the incidents of her life among the savages.

The Washington, (D. C.) Star estimates the population of the national capital city at from 75,000 to 80,000.

At the commencement of Antioch College, Ohio, last week, sixteen young gentlemen and two young ladies graduated. The college has now over 200 students and is free from debt.

The storm in Berkshire, on Saturday night, July 2d, according to the estimate of the Pittsfield Eagle, damaged roads, crops and property to the extent of \$60,000.

PLAYING TO PUT OUT A FIRE.—The Western Reserve Chronicle, at Warren, states that on the 4th of July, the people of that town purchased an old mill, which had long been an eyesore, on the opposite side of the river, and set fire to it in order to celebrate the day, by giving the fire companies an opportunity to show their efficiency in extinguishing it. But just as they got fairly at it, the wind blew the burning shingles over on the town, setting fire to the Methodist Church, as well as six or seven other buildings, at the same time rendering the utmost exertions of the citizens necessary, to save the town from destruction.

A young man who resides in Buffalo recently went to Chicago in search of a young woman to whom he was affianced. He found her in brothel, with an older sister, who had induced her to leave her home and assumed a life of shame. The frail girl returned with her lover. Perhaps it is owing to some cases of this sort that the people of Chicago have recently destroyed several houses of ill-fame by fire.—Rock. Dem.

At the Fourth of July celebration in Elizabeth, N. Y., the following fervid toast was offered:

The Women of Elizabeth.—We admire them for their beauty, we value them for their intellect, and we love them because we can't help it.
